Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach nor suggest a dual pivot hinge mechanism for a vehicle door in the entire claimed combination including a first support having a cam surface and terminating in a detent or a detent position, a second hinge support having a pivot stop, and a torsion rod having a reaction leg, a hinge arm pivotally connecting first and second pivot pins on each of the first and second hinge supports; a cam follower mounted to the hinge arm and biased against the cam surface; a stop linkage operably connecting the hinge arm to the second hinge support and adapted to engage the pivot stop, the stop linkage further comprise a roller adapted to engage the reaction leg of the torsion rod, as claimed. Such an arrangement allows for a substantially semi-circular range of motion of a pivoting automobile door via sequential pivoting of the first hinge support about the first pivot pin then of the hinge arm about the second pivot pin, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
